Biology		7402	
Chemistry		7405	

Practical Endorsement information

For A level **Biology, Chemistry** and **Physics** applications, you will only be able to sit the WRITTEN papers at Southfields Academy, provided you can show us a Statement of Results and/or an official certificate confirming a practical endorsement PASS from a previous exam series. If you have decided to opt out of the practical endorsement (meaning you will receive a “not classified” in the practical endorsement which will appear on your certificate), please discuss this with the Southfields Academy Examinations Officer before submitting your application form.

Applications for English Literature and English Language will only be considered from private candidates who have already received a grade in the subject, and who want to retake the written papers carrying forward their Non Examination Assessment (NEA) from a previous exam series. A valid Statement of Results, confirming that a mark for the NEA has been awarded in a previous session will need to be shown to us.
